Detailed Action

Allowable Subject Matter

Claims 24-29 are allowed.

The following is an examiner's statement of reasons for allowance: The present invention generally discloses an auction system for making match between a person who wants to obtain a loan and a person who wants to finance a loan through a network. The prior arts of record include the teaching of Zandi (US 5,966,699), King (US 5,742,775), and Chien (US 2002/0120557). Zandi teaches loan auction via the Internet. On the other hand, King teaches repayment of the loan with interest in relation to minimum and maximum rate cap. Furthermore, Chien discloses matchmaking section among members of a financing group. However, the prior arts of record fail to teach, singly or in combination, an input section configured to input information related to the borrowing request and including a desired borrowing amount and a maximum allowable interest if a user selects the borrowing request, and to input information related to the lending offer and including a desired lending amount and a desired interest or a condition capable of calculating the desired interest if another user selects the lending offer wherein the risk calculation section is configured to allow each of entities of the potential lending offers to designate a risk calculation condition used for a corresponding potential lending offer, and the risk calculation section calculates an appropriate interest rate for application to each of the potential borrowing requests while using background information of a corresponding potential borrowing request stored in the background information storage section, in accordance with a designated risk

calculation condition for each of the potential lending offers, so as to allow a corresponding entity to refer to the appropriate interest rate.

The examiner agrees with the applicants' arguments presented in the remarks of July 23, 2008 and has withdrawn the rejection under 35 USC 103 over Zandi (US 5,966,699) in view of King (US 5,742,775), and further in view of Chien (US 2002/0120557). The prior arts of records taken singly or in combination fail to teach or fairly suggest the claimed invention. Therefore, the examiner favors the allowance of claims 24-29.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
